In addition to the causes above, are there human causes of arc flash too? Yes. People can contribute to or cause an arc flash by contacting a live electrical part, using unsafe or inappropriate tools, using tools in an unsafe manner, dropping tools, ignoring warning signs and labels, and ignoring lockout/tagout procedures.

Island arcs are long chains of active volcanoes with intense seismic activity found along convergent tectonic plate boundaries (such as the Ring of Fire). Most island arcs originate on oceanic crust and have resulted from the descent of the lithosphere into the mantle along the subduction zone. They are the principal way by which continental growth is achieved.

Convergence of arc lengths of a sequence. Does there exist a if and only if condition so that arc length of a convergent sequence of functions to converge to the arc length of the limit. But my functions  $f_n$  and  $f$  are all convex. Following the link above, one user said that this would imply convergence of arc lengths.
