A vital part of understanding a social problem, and a precursor to preventing it, is an understanding of what causes it. Research on the causes of violence against women has consisted of two lines of inquiry: examination of the characteristics that influence the behavior of offenders and consideration of whether some women have a heightened vulnerability to victimization.

Undernutrition occurs when people do not eat (or absorb) enough nutrients to cover their needs for energy and growth, or to maintain a healthy immune system. Micronutrient deficiencies are a sub-category of undernutrition and occur when the body lacks one or more micronutrients (e.g. iron, iodine, zinc, vitamin A or folate). These deficiencies usually affect growth and immunity but some cause ...
