Significance People at work: persons involved in the production of goods and services. As production requires working time and human capital, firms and other organizations pay people, providing them with a key component of their income.

Employment: a key concept in Economics

Sandia's Z machine is the world's most powerful and efficient laboratory radiation source. It uses high magnetic fields associated with high electrical currents to produce high temperatures, high pressures, and powerful X-rays for research in high energy density science. The Z machine creates conditions found nowhere else on Earth. Z is part of Sandia's Pulsed Power program, which began in ...

Sandia National Laboratories: Z Pulsed Power Facility

Labor unions in the United States are organizations that represent workers in many industries recognized under US labor law. Their activity today centers on collective bargaining over wages, benefits, and working conditions for their membership, and on representing their members in disputes with management over violations of contract provisions. Larger trade unions also typically

We examine the association between employee quality and financial reporting outcomes. Using the average workforce education level in MSA(s) where the firm operates as a proxy for employee quality, we find that firms with a high-quality workforce exhibit higher accruals quality, fewer internal control violations, and fewer restatements.
