

## *Diet Of Worms*

### **Diet Of Worms**

The Diet of Worms 1521 (German: Reichstag zu Worms ['ʁaɪçsta:k tsu: 'vɔəms]) was an imperial diet (assembly) of the Holy Roman Empire called by King Charles V. It was held at the Heylshof Garden in Worms, then an Imperial Free City of the Empire. An imperial diet was a formal deliberative assembly of the whole Empire. This one is most memorable for the Edict of Worms (Wormser Edikt ...

Wolves are carnivores (meat eaters) but they will eat other foods as well. Their diet ranges from big game, such as elk and moose, to earthworms, berries and grasshoppers. To avoid using too much energy catching their food, wolves prey on weaker members of a herd, such as old, young or sick animals.

The Imperial Diet (Latin: Dieta Imperii/Comitium Imperiale; German: Reichstag) was the deliberative body of the Holy Roman Empire. It was not a legislative body in the contemporary sense; its members envisioned it more like a central forum where it was more important to negotiate than to decide.. Its members were the Imperial Estates, divided into three colleges.
