Drawing Lessons for Kids. Drawing is one of the most important activities you and your students can do. Drawing not only provides the basis for other creative activities - like painting, sculpture and printmaking - but it also provides a direct link with reading, writing and especially mathematics.

Remarks. Drawing objects are light-weight objects that enable you to add geometric shapes, images, text, and media to an application. Drawing objects are considered light-weight because

they do not provide support for Layout, Input Overview, and focus. Because of their performance benefits, drawings are ideal for backgrounds and clip art. You also use drawings when programming at the Visual level.

Art Classes: 6th & 7/8th. This year, LCMS is offering art classes for 6th graders and 7/8th graders. These classes combine hands on study of art processes with art history and appreciation. We make art, we look at art, and we talk about art. Aside from making art, highlights for the year include Fall and Spring student art shows and field trips ...
