Generative Jewelry and Fashion Design are for designers who are exploring new shapes using generative algorithms, Grasshopper® is a graphical algorithm editor tightly integrated with Rhino's 3-D modeling tools. Unlike RhinoScript, Grasshopper requires no knowledge of programming or scripting, but still allows designers to build form generators from the simple to the awe-inspiring.

The history of fashion design refers to the development of the fashion industry which designs clothing and accessories. The modern industry, based around firms or fashion houses run by individual designers, started in the 19th century with Charles Frederick Worth who from 1858 was the first designer to have his label sewn into the garments that he created.
