Renaissance technology is the set of European artifacts and inventions which span the Renaissance period, roughly the 14th century through the 16th century. The era is marked by profound technical advancements such as the printing press, linear perspective in drawing, patent law, double shell domes and Bastion fortresses. Sketchbooks from artisans of the period (Taccola and Leonardo da Vinci ...

Influences. The influences at work in the tractate are an interesting blend of Renaissance humanism with its emphasis on the *via activa*, tempered by the more contemplative medieval concern with personal redemption. It is clear, however, that the overwhelming thrust of Milton's educational programme as outlined in the tractate is centred in the public objective.

What is Transhumanism? <https://whatistranshumanism.org>. Transhumanism is a way of thinking about the future that is based on the premise that the human species in its current form does not represent the end of our development but rather a comparatively early phase.. Transhumanism is a loosely defined movement that has developed gradually over the past two decades.

History of Europe - Reformation and Counter-Reformation: In a sense, the Reformation was a protest against the secular values of the Renaissance. No Italian despots better represented the profligacy, the materialism, and the intellectual hedonism that accompanied these values than did the three Renaissance popes, Alexander VI, Julius II, and Leo X.

vol 6 pg 1. A Philosophy of Education Book 1. Introduction. These are anxious days for all who are engaged in education. We rejoiced in the fortitude, valour and devotion shown by our men in the War and recognize that these things are due to the Schools as well as to the fact that England still breeds "very valiant creatures."

In our recent discussion regarding the menace of the telephone (and electricity, and progress in general), I mentioned that there surely existed an exhortation against even the printing press, just as there seem to be curmudgeonly railings against every form of progress, in every generation. And the commenters came through! "Yoyo" mentions the fifteenth-century abbot Johannes Trithemius ...

A "general statement" "intended to develop a unified conceptual scheme for theory and research in the social sciences" was published by nine USA social scientists in 1951. Theory was to be based on a "theory of action" in which "the point of reference of all terms is the action of an individual actor or collective of actors".
