The big cats in South Africa receive a lot of attention. In fairness lions, leopards and cheetah deserve the focus; most of these top predators are in danger - we live in their space, we hunt them illegally and kill them when they prey on livestock.. But South Africa is also home to four smaller cats - the African wild cat, the black-footed cat (now known as the small spotted cat), the ...

Felidae is a family of mammals in the order Carnivora, colloquially referred to as cats, and constitute a clade. A member of this family is also called a felid. The term "cat" refers both to felids in general and specifically to the domestic cat (*Felis catus*).. The Felidae species exhibit the most diverse fur pattern of all terrestrial carnivores. Cats have retractile claws, slender muscular ...
