Time After Time Studies In

A prominent food researcher plagued by scandal has had even more studies retracted. Brian Wansink, known for his buzzy behavioral science studies focusing on food, resigned from his post at ...

Researcher Brian Wansink Has Had More Studies Retracted | Time

Others have theorized that post-meal changes in blood circulation could explain why eating makes some people sleepy. Blood flow to the small intestine “dramatically increases” after a person ...

Why Do You Get Sleepy After Eating? | Time

Your Health and Daylight Saving Time. Daylight Saving Time (DST) messes with our body clock. According to studies, the 1-hour time change can trigger underlying health issues.

Can Daylight Saving Time Hurt Your Health? - Time and Date

The concept of "wait-time" as an instructional variable was invented by Mary Budd Rowe (1972). The "wait-time" periods she found--periods of silence that followed teacher questions and students' completed responses--rarely lasted more than 1.5 seconds in typical classrooms.

Using "Think-Time" and "Wait-Time" Skillfully in the ...

Our studies can be categorized this way: Time Series Studies. ANES Time Series studies have been conducted since 1948, typically through in-person interviewing, during years of biennial national elections.

Data Center - ANES | American National Election Studies

THE LEAD RESPONSE MANAGEMENT STUDY OVERVIEW. Similar to the Lead Response Management Survey, but with far more precise data, this study set out to fill the knowledge gap that exists between marketing and sales, where companies are using intuition and experience to manage lead response timing rather than science.
